

Banquets and meeting facilities—

MISIÓN DEL SOL
RESORT & SPA
UN ESPACIO DE LUZ

The demands of a globalized world have taken a toll on the stress levels of executives around the globe, lowering their efficiency and hurting the performance of their departments, decreasing their productivity.

Why then is it important to plan outside of the office?, A relaxed atmosphere outside of the everyday routine becomes the best way to try to find solutions, Ideas flow and the solutions seem easier to find when the surrounding atmosphere allows everything to flow in harmony.

Misión del Sol (Awarded best Independent hotel in México 2007), has redefined the concept of meetings and conventions, with special areas and open spaces designed with relaxation and the elimination of stress, in mind. Even though it's oriented towards leisure travelers it also helps promote creativity, integration, and corporate reorganization.

Our awarded team of professionals in the Groups and Conventions Department is looking forward to assist you in the planning and coordination of your next event; confident that will not only meet but will exceed your company's expectations.
